

SUMMARY

I am a freelance motion graphic designer. My graphic design experience includes corporate branding, interface and promotional design. I have created TV commercials, case studies, promotional and viral videos for some of Australia and the UK's biggest names in broadcasting, digital media and advertising.

In 2004 I completed a Bachelor of Multimedia Design at Swinburne University of Technology Melbourne. Proficient in the use of Adobe After Effects, visual effects and motion graphics is what I love but all forms of art, design and photography inspire me. I work extensively with the Adobe Creative Suite as well as Cinema 4D. I am quick to adapt to new software demands and enjoy the learning experience of working with new products as well as new team environments.

SOFTWARE

+ After Effects	+ Media Encoder	+ Illustrator
+ Premiere Pro	+ Audition	+ InDesign
+ Cinema 4D	+ Photoshop	+ Mac & PC
